NOTICE OF ALLOWANCE

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/2007 has been entered.

This is a Notice of Allowance in response to Amendment filed with the RCE on 10/26/2007.

Claims 16, 18-25, 27-31 and 38-40 were previously rejected in the Final Office Action.

Claims 1-15, 17, 26, 32-38 and 40 have been cancelled.

Claims 41-44 are new.

Claims 16, 18-25, 27-31, 39 and 41-44 remain in the Application.

Restriction/Election Requirement

In response to Applicant's request for the rejoinder of claims of Group I and Group II, the restriction requirement mailed on September 7, 2006 has been reconsidered in view of the allowability of claims (Group II) to the elected invention pursuant to MPEP § 821.04(a). However, the request of rejoining the claims of Group I and Group II is denied, for the reason as set forth in the MPEP 821.04.

In order to be eligible for rejoinder, a claim to a nonelected invention (Group I) must depend from or otherwise require all the limitations of an allowable claim. A withdrawn claim that does not require all the limitations of an allowable claim will not be rejoined. See MPEP § 821.04(b). In order to retain the right to rejoinder, applicant is advised that the claims to the nonelected invention(s) should be amended during prosecution to require the limitations of the elected invention. Failure to do so may result in a loss of the right to rejoinder. Rejoined claims must be fully examined for patent

Allowable Subject Matter

Claims 16, 18-25, 27-31, 39 and 41-44 are allowed. Claims renumbered 1-19.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious a memory unit including among other limitations, "a controller configured to allow JTAG hardware to write information into the authorization unit information block and into the authorization unit information block pointer of the protected area through the JTAG interface, to allow the authorization logic exclusive access to read the written information and to prevent any over-writing of the written information until the non-volatile memory is entirely erased" recited in the independent claim 16, as currently amended.

A memory unit including among other limitations, "a controller configured to allow

the external JTAG hardware to write information into the authorization unit information block and into the authorization unit information block pointer of the non-volatile memory through the JTAG interface, and configured to allow the authorization logic exclusive access to read the written information, wherein the controller is clocked by a system clock signal if the system clock signal is available, and by the JTAG clock signal if the system clock signal is not available" recited in independent claim 25, as currently amended.

Consequently, Claims 16, 18-25, 27-31, 39 and 41-44 are allowed over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
